

# Glamour 2

## Product Description

Glamour™ II Veneer, a proprietary canvas varnish (and/or giclee varnish), has been developed to protect, preserve and enhance fine art and photographic prints produced on digital inkjet printers. This new non yellowing, water based canvas varnish is a perfect solution for easy inkjet print finishing. Glamour™ II will enhance the color of pigmented and ultrachrome inks on matte media and increase resistance to image fading. It will protect your expensive images against moisture and abrasion. Glamour™ II Veneer giclee varnish has been specifically developed as a water based product to avoid the unpleasant and hazardous fumes given off by solvent based products, and is an absolutely perfect compliment to our very own Brilliance™ Canvas range.

## Physical Specifications
