

Muse 100 Satin SUL

Product Description

15 mil, 300 GSM, Satin Poly-Cotton Canvas for Solvent, Latex, and UV Inks

Muse 100 Satin Canvas is a 300 GSM bright white poly-cotton blend canvas, for solvent, latex, and UV inks. It is bright white, great for contrast in your images. Its wide color gamut, high Dmax and rich color saturation result in print quality that you expect from Breathing Color's high end canvas line.

For Muse 100 we chose a lighter and thinner 1-over-1 canvas base material in order to reduce the overall product cost. This allows us to make Muse 100 Canvas available to those printers who produce for high volume print fulfillment, decor and hotel projects, and others who need a high-quality canvas at a low price.

The printed surface is highly durable, water resistant, and scratch resistant.
